Classic Timber SLIDING SASH WINDOWS

Keeping the traditional
Look and Feel,
whilst creating modern
high performance!

Our Traditional sliding sash window design ensures that the windows have good weather tight performance even in stormy conditions, while still keeping the traditional design.

Upon opening the window the sashes are separated, thus avoiding wear on the weather strip. On closing the window the sashes are being pressed against the weather strip, making the

window shut very tight.

The windows are fitted with Torso balance springs and with lockers/handles on the bottom sash. Both sashes have a tilting possibility for easy cleaning of the sash.

Thermal transmittance U Value of Viking Sliding Sash Windows is $U_w = 1,4 \text{ W/m}^2\text{K}$.

The advantages of sliding sash timber windows supplied by Viking Windows:

- > Contemporary appearance and sleek design;
- > Excellent storm proof detailing;
- > Excellent thermal performance;
- > Durability and ease of use;
- > Made to measure every time.
- > Min size 500 x 650mm
- > Max size 1200 x 2200mm

Classic

CASEMENT WINDOWS

The Viking Windows Classic window range offers modern design performance combined with traditional Irish Heritage. The Classic casement window range is available in a range of opening types with hundreds of design possibilities. Viking Classic casement windows offer traditional detail designs with special moulded edges internally and traditionally designed English style glazing bars 26mm in width. Classic casement windows can be produced from either Nordic Pine or hardwood such as Meranti or Oak.

Choose from traditional Irish design or more Georgian/ Edwardian designs. The possibilities are endless with Viking Classic windows. Also available in Classic+ which is a timber window with Aluclad external providing a maintenance free window.

Classic Hardwood

Classic DOORS

Viking Country Style Door Sets are made to order with hundreds of door designs to choose from. Classic Doors are made from either Nordic Pine or hardwood such as Meranti or Oak.

Choose from either traditional Irish Country style design or Georgian/ Edwardian design. The possibilities are endless with Viking Classic door sets.

Classic door sets perform to modern standards for energy efficiency and security, with energy performance as low as 0.7 w/msqk. Door sets are also available in Classic+ Aluclad.

VIKING WINDOW'S

Viking Windows is a globally renowned window and door manufacturer with a wide product range. Our range includes Scandinavian, English, and German windows, exterior doors, folding and sliding doors. In addition to timber windows and doors, the selection also includes aluminium clad windows and doors whose exterior side is covered with resilient aluminium profiles. Windows and doors may be tailor-made, according to the building's needs!

We are focused on offering customer-friendly and energy efficient solutions. Thanks to the high quality Grade A1 & A2 Timber we use, our windows and doors have a long life span. Water based finishing materials guarantee the environmental friendliness of Viking Window's cavity

fillers; glazing units, hardware and seals are

supplied by leading manufacturers in their respective fields, ensuring ease of use and compliance with modern building standards.

Having supplied to Ireland for 16 years we believe in Local, that's why we have dealer showrooms throughout Ireland in Dublin, Cork, Galway, Northern Ireland and local dealers to support you locally.
